

Varian Medical Systems Inc. is the world's largest manufacturer of medical devices and software for treating cancer and other medical conditions with radiotherapy, radiosurgery, and brachytherapy and employs more than 6500 people around the world.

Varian Medical Systems offers the following opportunity:

Education Instructor Physics Support

Are you a Medical Physicist and passionate to share your knowledge with others? Are you interested to work in a multi-cultural environment? Then this position is exactly what you are looking for.

Job duties:

- Deliver customized training programs to customers and employees, to increase and improve product knowledge of VMS products. That includes class room trainings, clinical schools and workshops.
- Together with the global standard and content team identify training needs and develop product training programs on VMS products for customers and employees.
- Evaluate effectiveness of training programs content and delivery through evaluation tests and update or modify training course or sessions when necessary, to ensure the most effective and up-to-date training courses and methods are available at all times.
- Maintain a high degree of professional knowledge and safety consciousness according to VMS guidelines in order to perform activities under the safest working conditions.
- Report by means of time sheets / expense reports / training reports etc. (as applicable) regularly / weekly to ensure accurate company statistical data on customer-oriented activities is available / maintained up to date.
- Can participate in trade shows and exhibitions by conducting technical and systems demonstrations of VMS products, in order to support sales and marketing in sales activities

Qualifications:

- Degree/diploma in medical physics.
- Minimum 5 years in the field of medical physics or equivalent experience
- Advanced user knowledge of Microsoft Office
- Sound understanding of customers and their requirements
- Excellent knowledge of training techniques and methodologies to train adults (hospital professionals)
- Good knowledge in the local language, English and French, written and spoken
- Willing to travel about 30%
- Willing to work normal and non-normal hours as required to support the customers
- Excellent skills in applying VMS health & safety regulations to job holder's work environment

You are a mature, tactful personality. Clear verbal and written manners of expression are your outstanding attributes. You work independently and like to discuss proposed solutions within a team. As an intercultural competent person, you also appreciate an international working environment and contact with partners in Europe and overseas.

You're just one click away from the most impactful work you'll ever do. Apply now and join our mission to help save lives. Someone, somewhere, will be glad you did. We look forward to your German or English application. Job code 11355BR. [APPLY HERE](#)
