

AMP Meeting Announcement

Dear Colleagues,

The next AMP meeting will take place in Bern, Kuppelraum, Universität Bern, Hauptgebäude, Hochschulstrasse 4 at 13h15.

The programme is a bit special because the SSRMP board is requesting a special activity for the participants. The meeting will be fully dedicated to the revision of the radiation protection ordinance. There will be set four sub-groups in the first part of the meeting and each sub-group will work on one of the four following specific topics:

- 1) Radiation protection ordinance in general
- 2) Linac ordinance
- 3) Imaging (Röntgen-Ordinance)
- 4) Rest

The task of the sub-working groups will be to formulate the 10-top-ranked issues. Then each sub-working groups will give a max. 15 min presentation to the plenum and a discussion will follow.

I would particularly appreciate your participation to this meeting which will allow an open discussion about the futur position of SSRMP concerning the revision of the radiation protection ordinance. In order to have an efficient meeting, it is anticipated that you need a preparation before the meeting.

The programme will be the following:

- 13.15 Welcome and defining groups
- 13.30 Start working in groups
- 14.30 Break (or still working)
- 15.00 Group presentations in plenum
- 16.30 Finalization

I am looking forward seing you in Bern the 11th!

Best regards,

Raphaël Moeckli
Chair of the science committee
